SUPPORTED BY

PRIVATE SECTOR PARTNERS INCLUDING

GLOBAL ALLIANCE FOR TRADE FACILITATION

WHO WE ARE

We are a public private partnership for trade-led growth, supporting governments in implementing the WTO Trade Facilitation Agreement (TFA).

WHAT WE DO

By emphasising digitalisation and delivering other best practices, Alliance projects cut through red tape and end costly delays at borders, bringing together governments and businesses of all sizes as equal partners to deliver targeted trade reforms.

OUR PURPOSE

To boost trade competitiveness and business conditions, which are key drivers of inclusive economic growth and poverty reduction.

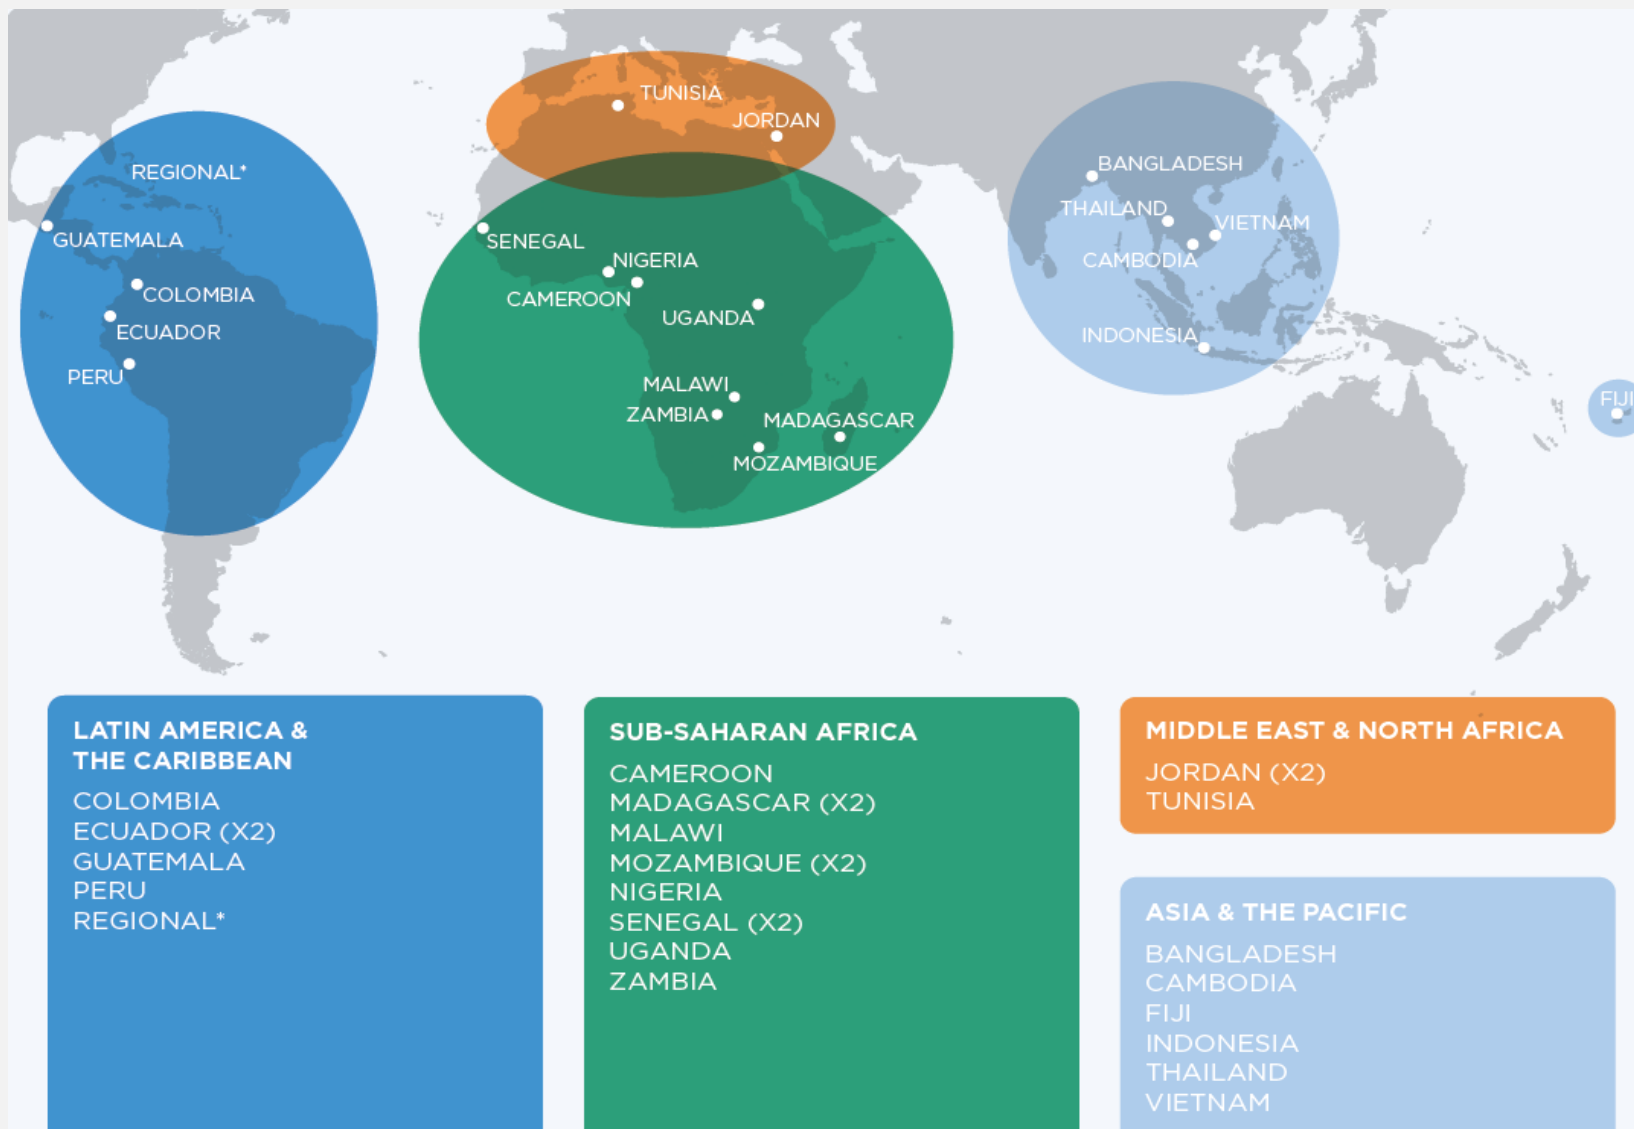

OUR VISION

A world where cross-border trade is simple, fast, and cost-effective.

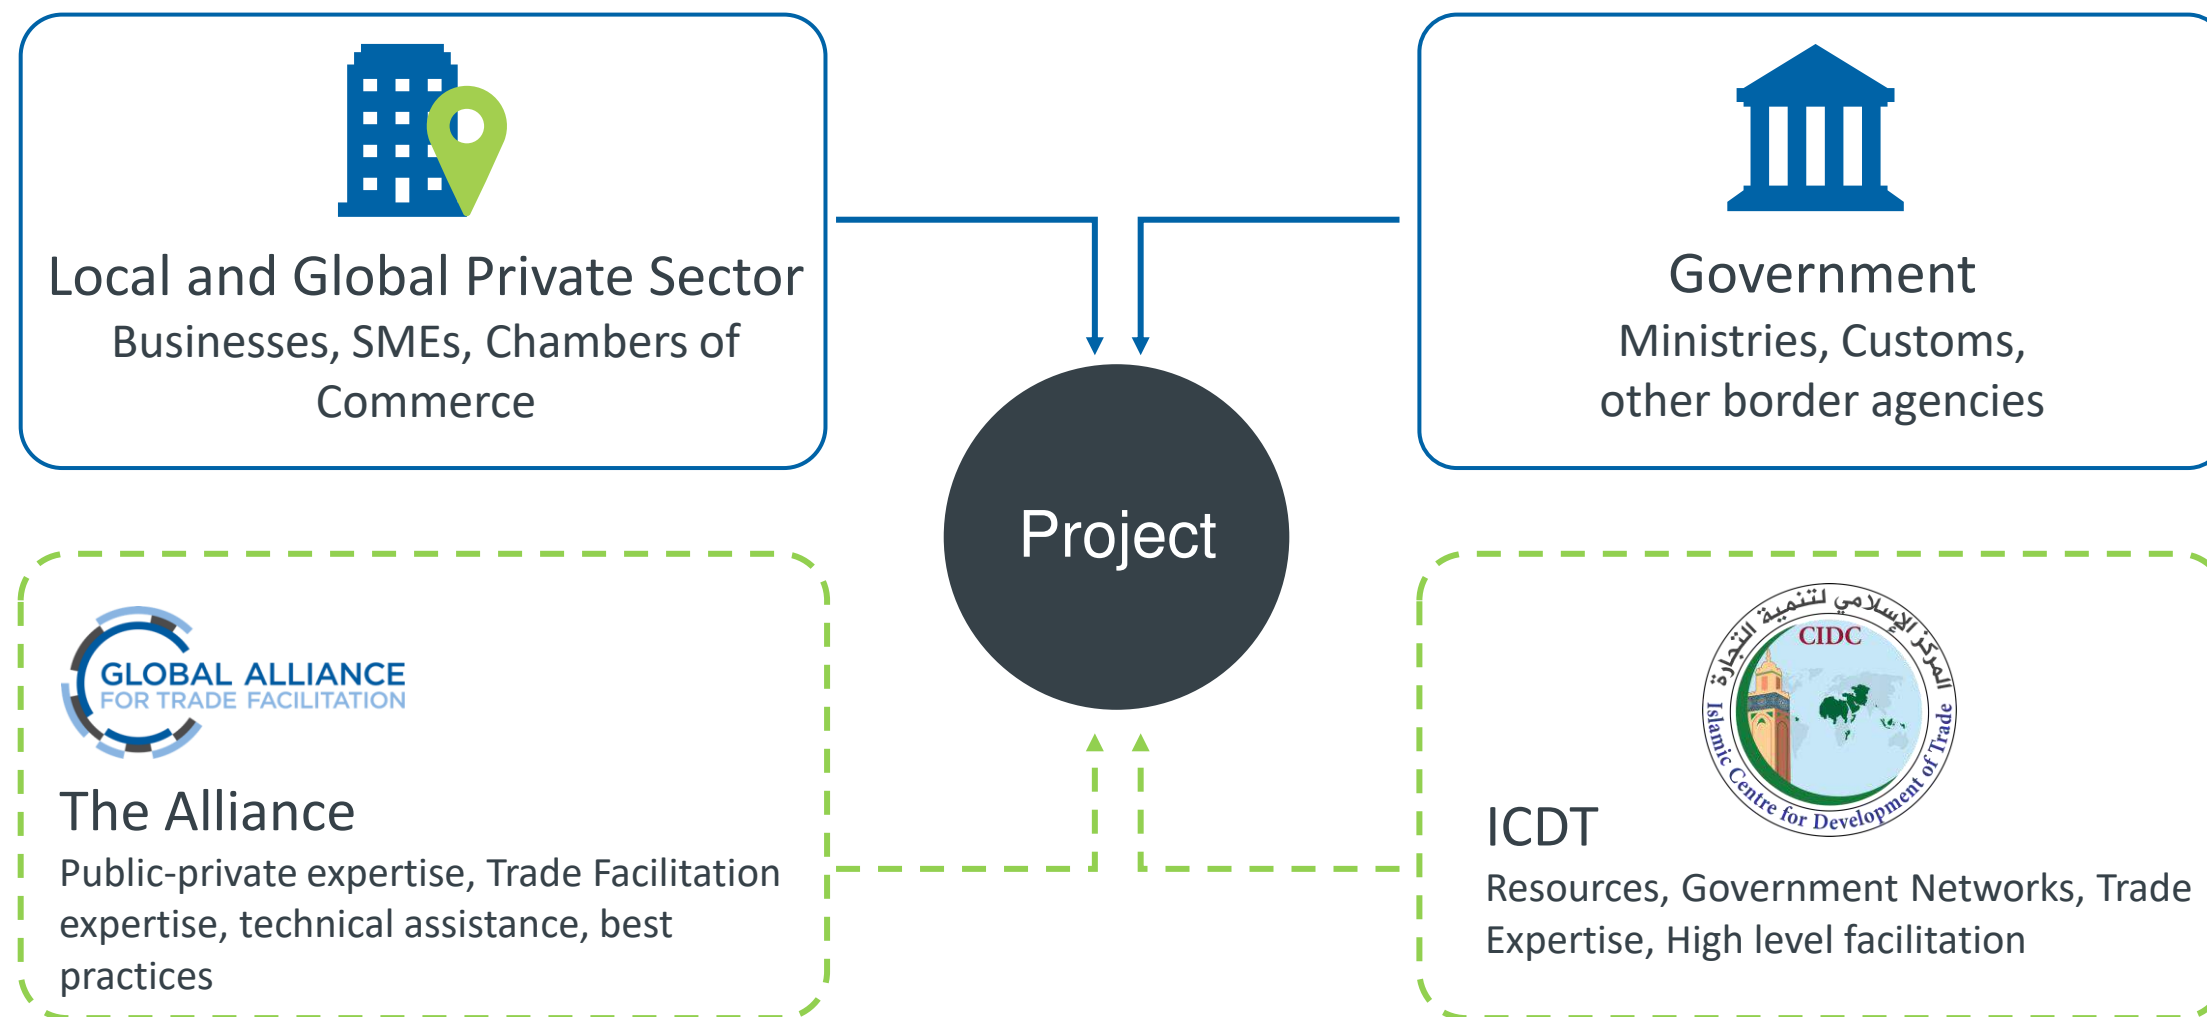

PROJECT PORTFOLIO

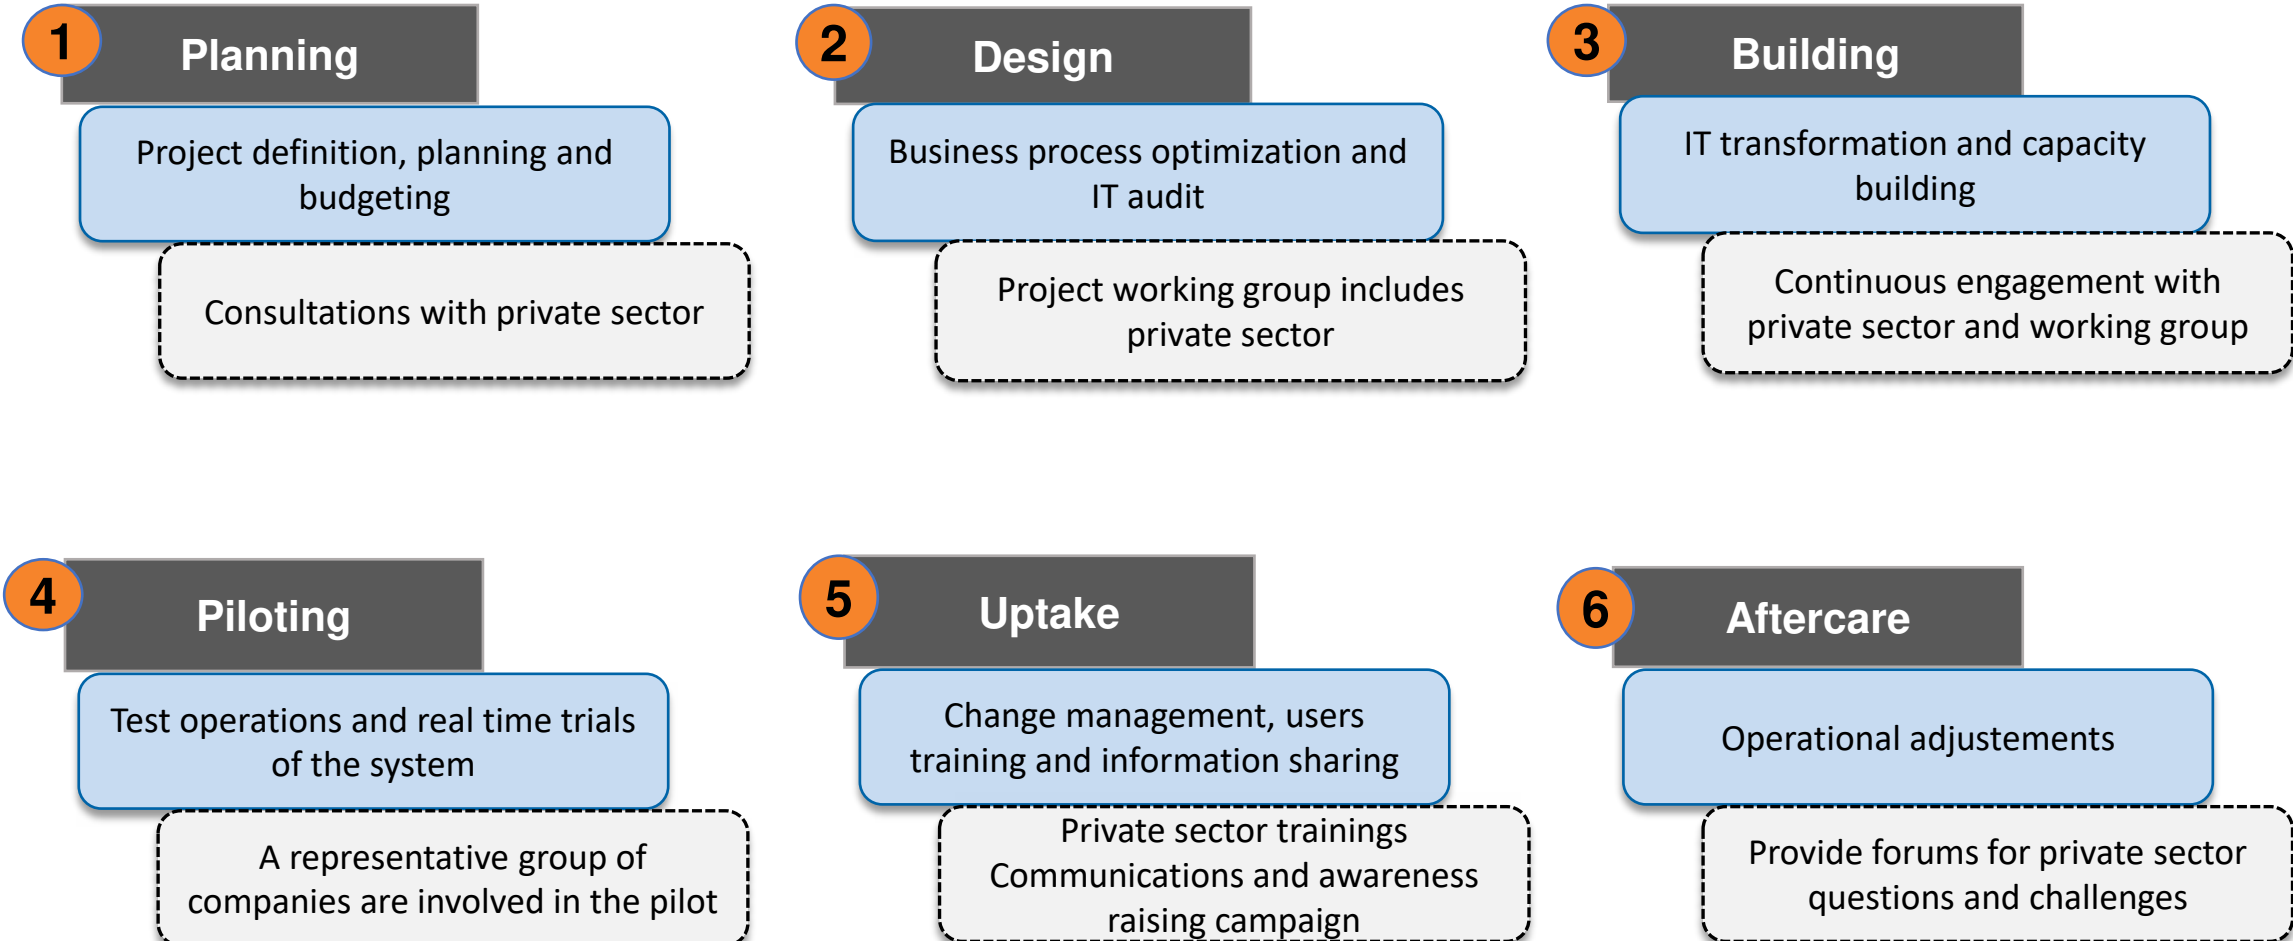

GLOBAL ALLIANCE FOR TRADE FACILITATION

OUR APPROACH

PROJECTS IMPLEMENTATION

PARTNERING WITH THE PRIVATE SECTOR THROUGHOUT THE PROJECT

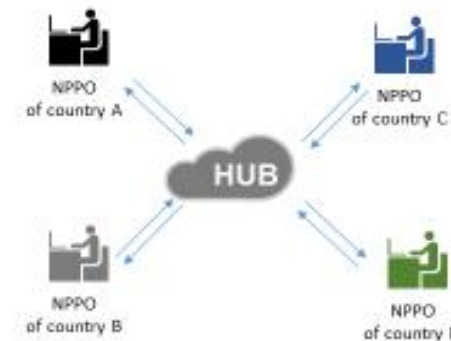

We are [partnering](#) with the FAO's International Plant Protection Convention (IPPC) Secretariat to help governments make trade in plants and plant products simpler, faster and more cost-effective while protecting consumer safety. We aim to do this by supporting countries to introduce electronic phytosanitary certificates, or ePhytos.

Implementing the ePhyto solution

- reduces the risk of loss, damage or fraud to the certificates
- makes trade of agricultural and food products safer, faster and cheaper
- provides seamless ePhyto exchange with other countries
- reduces administrative burden on border agencies and businesses
- allows traders to transmit globally accepted certificates safely, securely and instantaneously

The IPPC ePhyto Solution

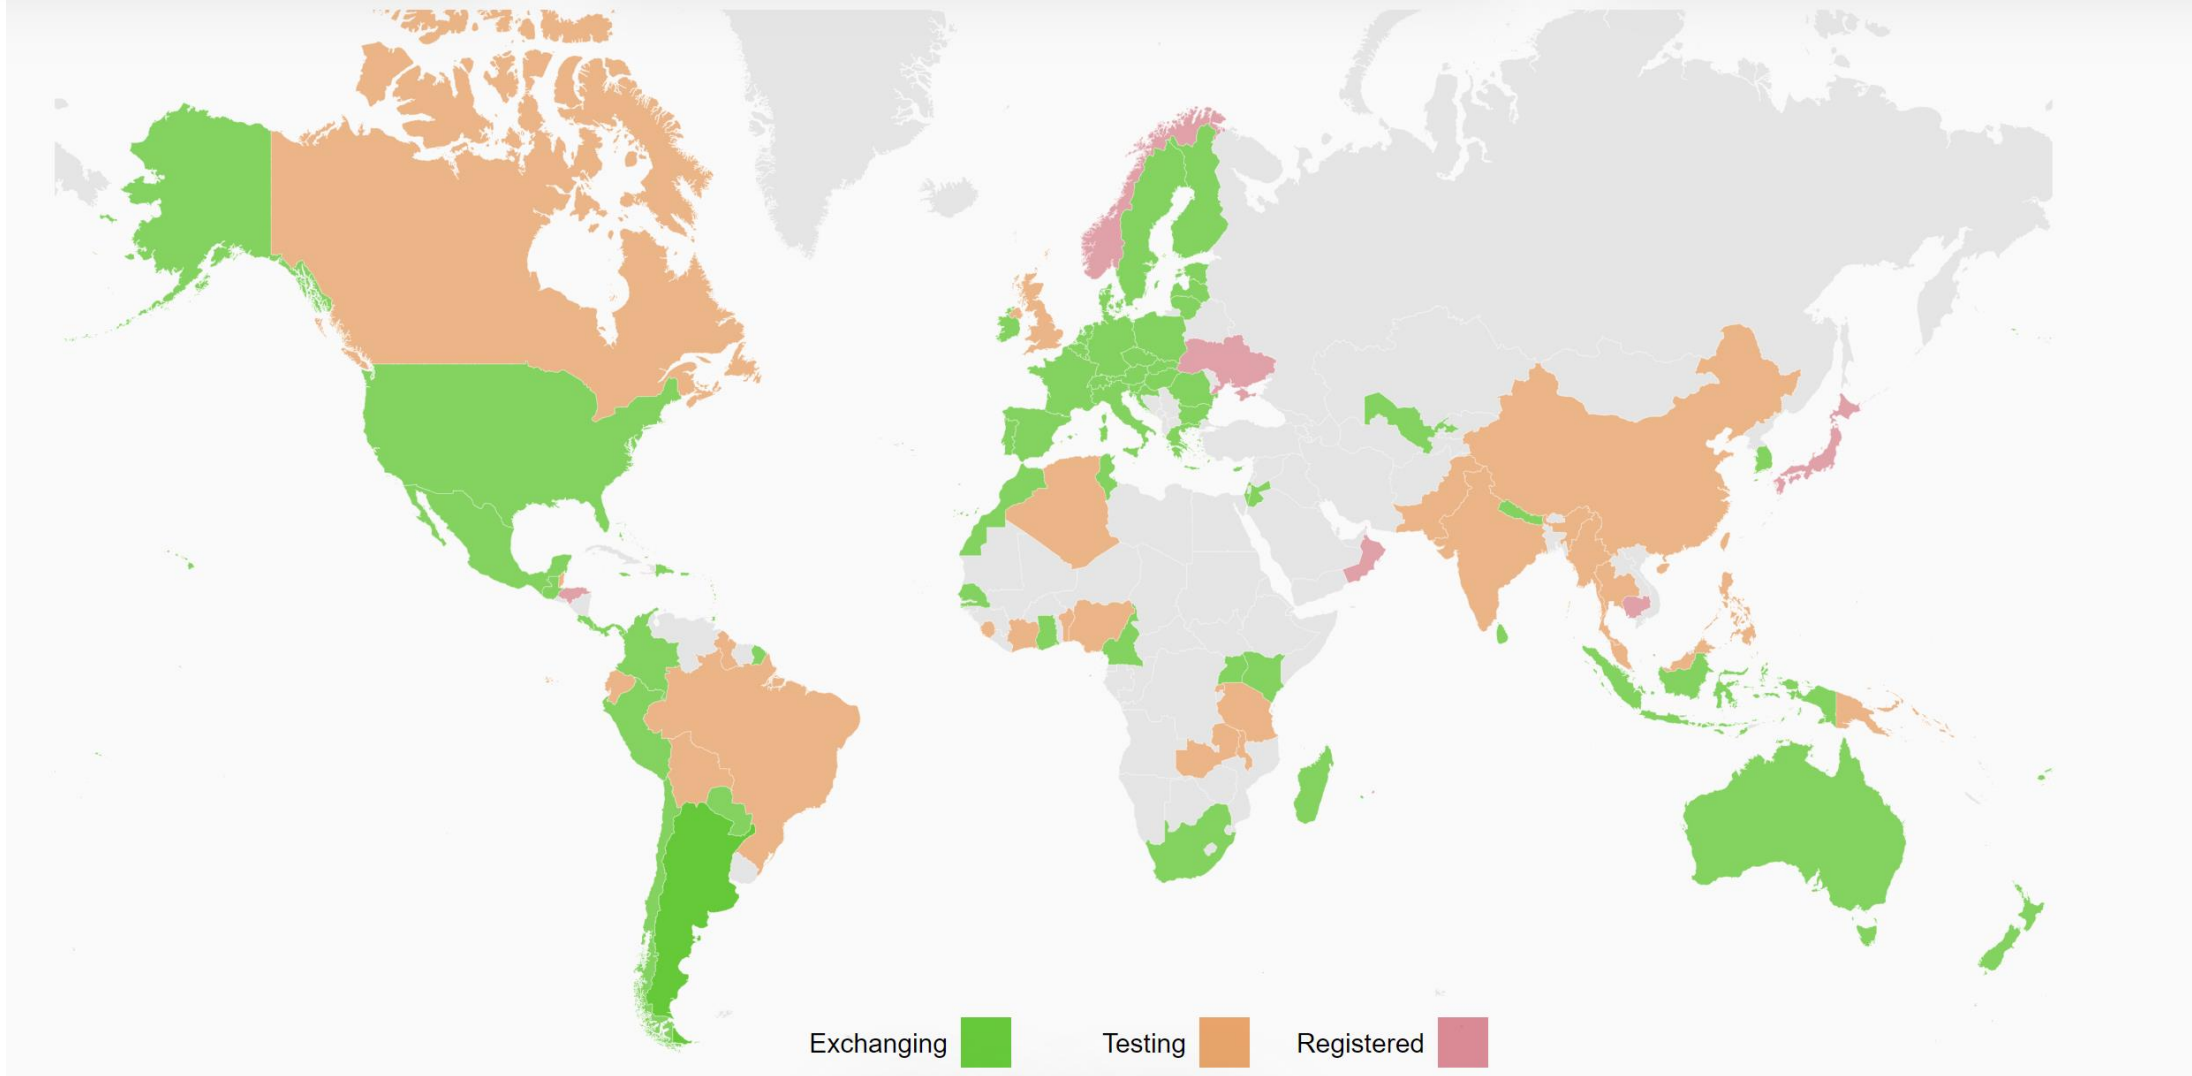

Single-point transmission (HUB)

Single point (HUB) exchange allows exchanges between all of the countries connected to the hub

Any new country connecting to the hub will be able to exchange certificates with all of the other connected countries
