

## launch of the ePhyto agricultural product certification digitalization project

27 September 2023, Republic of Togo

The Director General of ICdT, Ms. Latifa El Bouabdellaoui took part this Wednesday, September 27, 2023 in the launch of the ePhyto agricultural product certification digitalization project in the Togolese Republic.

Implemented by the Islamic Center for Trade Development, in collaboration with the Togolese Ministry of Agriculture, Livestock and Rural Development, the Islamic Development Bank (IsDB), the Global Alliance for Trade Facilitation Trade and the German Cooperation Agency (GIZ), this project aims to contribute to the facilitation of intra-OIC trade in the agri-food sector. It consists, in particular, of establishing an effective and efficient digital platform for phytosanitary certification in order to

facilitate trade and improve access to the international market for Togolese exporters.
